

Date: Friday 22 November, 2019

Time: 09:00am–4.30pm

## 2019 Autoantibody Seminar Preliminary Programme

*The Autoantibody seminar provides our select audience with a forum to discuss and opportunities to network with thought provoking leaders in this unique field of science.*

**Start : 9am**

- Memory B cells in monitoring disease activity post Rituximab in patients with severe autoimmune bullous disease
- Mass spectrometric typing of cryoglobulins: beyond immunological characterisation
- A novel subset of AntiRo60 : a blot on their detection
- Eric Hoy (immunoconcepts) TBA
- Automated ANAs
- False positive rates with myositis antibodies

Plus more ...

**Finish: ~ 4.30pm**

Please join us for drinks and dinner at a **local restaurant** at 6:30pm  
( casual dress)
